DETAILED ACTION***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention. There are sixteen groups of species.

Group I	Figures 1, 1A and 1B
Group II	Figures 2A and 2B
Group III	Figures 2C, 2D, 2E, 2F and 2G
Group IV	Figures 3
Group V	Figure 4
Group VI	Figure 5
Group VII	Figures 6 and 6A
Group VIII	Figures 6B and 6C
Group IX	Figure 6D
Group X	Figures 7, 7A and 7B
Group XI	Figures 8, 8A, 8B and 8C
Group XII	Figure 8D
Group XIII	Figure 8E
Group XIV	Figures 9, 9A, 9B and 9C
Group XV	Figures 10, 10A, 10B and 10C
Group XVI	Figures 11, 11A and 11B

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 2875

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
